

◆ PRODUCT INTRODUCTION:

The Emergency Escape Breathing Device (EEBD) Hanging Rack Box is designed for the safe storage of EEBD. Its aluminum alloy shell offers excellent impact and corrosion resistance, making it suitable for harsh marine or industrial environments. A stainless - steel hanging rack is available as an option, which facilitates the fixation of EEBD on the wall for quick access in case of emergencies. The box is equipped with an impact - resistant protective layer to keep the EEBD stable and less prone to damage. With a simple design, it is easy to install in prominent and accessible locations, and is widely used in high - risk workplaces such as ships, offshore platforms, and chemical plants.

◆ PRODUCT PERFORMANCE PARAMETERS:

Material: Aluminum Alloy

Dimensions: 24.5×15×58.5 cm

Net Weight: 2.5 kg

Color: Silver

Accessory: Mounting hanger

Accessory Material: Stainless steel
